DANIEL EICHINGER
DIRECTOR

NOTICE

The Department of Natural Resources (DNR) anticipates offering nominated minerals at a proposed June 14, 2022, Oil and Gas Lease Auction. All nominations must meet the following criteria:

- Nominations must be received on *Oil and Gas Lease Auction Nomination* form PR4303.
- Nominator must provide the total acres nominated.
- Nominator must include the surface owner's name, address, and specific legal description on parcels where the DNR owns the minerals ONLY. Please type the specific legal description of each surface owner on the form OR highlight and enclose the specific information on equalization documents. Failure to provide accurate surface owner information may result in the withdrawal of that parcel from the nomination. Nomination fee(s) will not be refunded.
- In order for minerals to be considered for the auction, Minerals Management Section (MMS) must receive the nomination form, appropriate fee, and surface owner information between December 27, 2021, and January 28, 2022. Please do not wait until the final day to submit nominations. Nominations will be accepted during the referenced time period only.
- Only the first 125,000 acres nominated will be field reviewed for parcel classification prior to being considered for leasing. Any leases offered for parcels which were nominated after the first 125,000 acres will be offered as Nondevelopment leases.
- Only DNR-managed or previously leased minerals will be included in the auction. Mineral rights owned by other state departments may only be leased through the Direct Lease process, if applicable.
- If nominating parcels containing state-owned minerals within a subdivision, the nominator must provide the subdivision name, lot, and block number. Please note, some nominated subdivision parcels may require additional research and may not be included in the upcoming auction. In this instance, the parcels will be included with the nominations for a subsequent auction.

Nominations that do not meet the above criteria may not be included in the proposed June 14, 2022, Oil and Gas Lease Auction. Nomination fee(s) will not be refunded. Nominations will be processed in the order received during the nomination period.

REMINDER: A nomination does not guarantee that each parcel will be offered. Other factors may impact the ability to lease the minerals (e.g., surface use considerations, title issues, existing lease on the parcel, or Executive Order). The MMS staff will make every attempt to include eligible nominated parcels in an upcoming auction. Nomination fee(s) will not be refunded if it is determined the minerals cannot be offered for lease.

For further information or assistance, please contact MMS staff at DNR-MMS, P.O. Box 30452, Lansing, MI 48909; or DNR-LeaseManagement@Michigan.gov.

OIL AND GAS LEASE AUCTION NOMINATION

Required under authority of Part 5, Section 502, Act 451 of 1994, as amended.

PLEASE NOTE: Submission of this information is required *before* the Michigan Department of Natural Resources (DNR) can offer state-owned mineral rights at a State of Michigan Oil and Gas Lease Auction. CERTIFICATION

I wish to nominate the state-owned minerals for oil and gas leasing which are listed on Attachment A (Page 2). I understand the nominated lands will be included in the next available oil and gas lease auction unless removed by the DNR due to factors that prevent offering, i.e., surface use restrictions, Executive Orders, or direct leases that have been subsequently issued.

I certify that I have: 1) Researched the title of the lands outlined on Attachment A of this document; 2) Found the minerals to be under the jurisdiction of the Michigan DNR; 3) Found the minerals to be free of any leasehold interest as of the date of this nomination; and 4) Provided the names and addresses of all surface owners of record for state-owned minerals only.
